2. Minutes of last meeting

Agreed and accepted

3. Matters arising

(to be addressed on agenda)

4. Evaluation of project

All partners informed the group of their successes and gave a detailed account of the project in their schools. There were no difficulties.

5. Mid term review for national agencies

Although mid term reviews are now completed by each partner with no co-ordinator input AS suggested that she would circulate her completed review to all partners following the meeting.

6. Mobilities for 2010/2011

The following dates were decided for Planning Meetings:

Poland	7 th -10 th October 2010
Latvia	9 th -12 th December 2010
Estonia	2 nd -6 th February 2011
Hungary	May 2011 (tba)

Following suggestions from evaluations Marta has booked a hotel in the centre of Rybnik and will look at restaurants in walking distance from the hotel. Many partners found it expensive to hire transport therefore within walking distance is the best idea if possible.

Also taking a suggestion from an evaluation, WW2 is an important factor in the history of Poland and a visit to Auschwitz concentration camp should be included in our visit. As this visit is of a sensitive nature AS will email partners to see if they wish to visit. Many partners said it was important that this visit should take place.

7. Calendar Year 2

The calendar for year 2 was circulated and explained. (a copy will be circulated as an attachment with the minutes)

8. End Product

The end product of our cookery book was discussed. Partners to bring examples of books to the meeting in Latvia. Corina will take responsibility for the production of the end product.

9. AOB

- Our Etwinning space was discussed with many partners stating their disappointment in the system. Many are finding it impossible to download project work. A discussion followed and it was agreed SD would name all partners as administrators and AB would email the group simplified instructions on how to download our project work.
- Partners thanked the U.K. hosts for arranging the planning meeting and project work was circulated.
